

FITTING GUIDE

TOOL BOX DOOR POCKET

Parts Supplied with kit

- Quantity of toolbox door pockets ordered

Tools and Equipment Required

- Phillips-head screwdriver
- Flat-head screwdriver

Installation Instructions

1. Confirm whether each toolbox door pocket is for the driver side or passenger side. The pockets are side specific and are not interchangeable.
2. Remove the existing toolbox door panel by removing the screws and clips. Retain all screws and clips for reuse.
3. Fit the toolbox door pocket using the original screws and clips.
4. Check that the pocket is secure.
